

# ePNInventory

## Integrated Inventory Management

ePNInventory provides merchants the ability to manage a perpetual inventory with minimal investment of time and money. eProcessingNetwork maintains this information and adjusts product quantity as it is purchased through a combination of any of ePN's payment solutions, including Online Terminal, ePNJPOS, ePNCart, and more. All inventory and payment information is stored at ePN's secure servers.

The screenshot displays the ePNJPOS Order Builder interface. It features a main order list and a detailed view of a selected item.

**Order Details Table:**

Qty	Item	Name	Price	Extended	
4	P851525	Pirelli 85/15/25	\$275.00	\$1100.00	- Remove
1			\$ 0.00		+ Add

**Item Selection Table:**

Item	Name	Price	On Hand	On Order
P851525	Pirelli 85/15/25	275	42	7
QS7600	Quaker State 7600	127.50	30	10

**ePNJPOS Order Builder Table:**

Inventory Item	Qty	Name	Price	Amount	Remove
Yes	4	Steak Knives	30.00	120.00	X
Yes	10	Dishcloths	4.50	45.00	X
Yes	10	Hand Towels	5.00	50.00	X

The interface also includes a 'Total: 215.00' and buttons for 'Cancel Order', 'Sale', 'Return', and 'Process'.

### Merchant Benefits

- Cost effective, electronic inventory management.
